## A WORD TO THE SENATE.

St. Louis Republic.—Mr. Cleveland's advice is not always good in currency matters, but his hope that whatever is done may be done quickly is echoed from every state. Filibustering and unnecessary speechmaking will only hurt the cause in whose behalf they are employed.

## THE KIDNAPERS ARE BRIGHTENING.

St. Louis Globe-Democrat.—All over the country the banks are beginning to show a disposition to afford a little more aid to business men than they have recently given. The banks are entirely safe in taking this step. They are stronger now than they have been for two months past, and the danger of a run is over, they are consulting their own interest as well as that of the community tributary to them in lending money freely on safe security.

## THE DOCTOR'S LAMENT.

Standard Interior Journal.—'Help! Help! The heat of July, the cold and storms of January come and go, yet medical ailments are dead, past due, unpaid, care worn, mildewed, moth eaten, ragged and hanging on the ragged edge of despair. You can plead limitation on the merchant, but you can't get to Heaven if you don't pay the doctor. Pay what you owe: it is right: the Lord loves a creature who pays his debts—says a doctor. Forbearance has ceased to be a virtue these hard times. Stay at home and work harder, live plainer and dress less. Then it will not be hard to pay the doctors their just earnings. Yours Truly, Dr. Patience. Mercy, Forbearance, Kindness, Fearful, Anguish, Pity, Sorrow.'

## THE VOTE ON THE BLIND BILL.

New York Press.—The figures of the vote in the House of Representatives on the proposition to revive the Silver Bill are highly significant. Every argument which Administration organs have been urging against the Sherman Law applies with double force to the Blind Act. Yet 113 Democrats voted to revive this objectionable measure, while only 103 voted against it. On the other hand, 110 Republican votes were registered against the Blind Bill, and only 15 Republicans voted for it. The dangerous financial tendencies of the Democratic party are strikingly illustrated in this showing. All the power of public opinion and all the influence of the Administration could not prevent a majority of the Democrats in the House from voting for unsecured currency. The Republicans, voting by unanimity, and the National welfare, saved the Administration from humiliating defeat on this most important issue and once more protected the country's interests from Democratic folly and demagoguery.

## ONE DOLLAR FOR ALL.

Commercial Gazette.—There has been a great amount of discussion on the silver question, but no figures have thus far been presented showing the average cost of producing the white metal. It is well understood that all mines are not equal; that it may cost much more per ounce or ton to extract silver from ores in one mine than in another. This is true of mining in general, but the levered of the mine is not to be reached through the books of inferior mines. This is an outcome that must be regulated by the laws of supply and demand, and it is not wise to adopt arbitrary laws for the purchase of silver by the Government at prices that would secure a large profit to one class of mines while barely covering the cost of production in others. Neither would it be wise to force prices by coining sixty cents worth of silver into a dollar, and stamping that as a legal tender by the Government. Silver miners should take their chances with all other producers, and every dollar that passes as money, whether gold, silver or paper, should be of equal value for every other dollar. This is the standard which must be maintained in this country if we would have our finances upon a solid basis.

SUNDAY MORNING LAZE.

The Fifth and Sixth Ward Fire Companies appeared on the scene, but too late to save the structures, as both were entirely consumed. Nathan Taylor, a colored man employed by the company, was struck near the fire by one of the nozzles and slightly injured.

The fire originated in the rear of the dwelling, which is unoccupied, and is believed to be the work of an incendiary or some prowler who had taken lodgings for the night in the house.

There was nothing in the buildings of any value. The stable was insured for \$200 and the dwelling for \$500.

BONES MEAN DOLLARS.

Cubby Asks Fare for Three—The Crowed Thinks Him a Grouch.

"I'll pay you a cent and a cent more," said a well-dressed young woman as she got out of a cab at the New York end of the bridge at 10 o'clock.

"I want three bones, lady," said Cubby.

"You'll get one bone. You're not dealing with me, are you?"

"At Third-third street, mum."

"Where did you take me?"

"To Bore's, mum." Cubby was weakening.

"Then, where?"

"Here, mum."

"How long did it take you?"

"Over an hour."

"But that was because you didn't know the way. Now I'll give you \$1 and my name and name in Brooklyn."

"I want them three bones."

By this time two city policemen and a crowd of on-lookers, including a little woman and the cabman. Somebody heard cubby ask for bones and the crowd, evidently not understanding the anatomical reference, presumably thought the passenger had robbed the cabman of an arm of leg.

"Then drive me up to police headquarters."

"Don't know where headquarters are! Sure you must be a greenhorn. But it's no good your going there now, lady. They'll be no body there."

Cubby was looking more and more embarrassed and finally gulped out: "Gimme one bone then," and when the anatomical reference was made he took it and hustled away. A cheer rose, and the spunky little woman who knew her rights pulled up the front of her dress, accented the steps and bought a ticket to Brooklyn.

The plucky little woman was Miss Marie Austin. She is starting in the great game of life, and is looking to appear in our city in conjunction with Dora Davidson during the present season.

THE LATE ISAAC NATAS.

The Funeral Will Take Place at 2 o'clock This Afternoon.

Isaac H. Natas, whose sudden death was mentioned briefly in Saturday's Ledger, was a native of Maysville and most worthy of Maysville's colored citizenry.

By industry and well-directed energy he had acquired, as long as twenty years ago, a home of his own, which he leaves to his wife and adopted daughter.

He was prominent in every movement for the betterment of his race—a consistent church member, a leader in the C. F. and O. Oddfellows, and had recently been chosen a member of the School Board.

He Natas, as he was familiarly called, was a good citizen, and set an example that all his race will do well to emulate.

The funeral will take place at 2 o'clock this afternoon, with religious services at Scott's Chapel M. E. Church, East Fourth street. Interment with the honors of the Orders to which he belonged.

Remarkable Record.

In all this time he has not missed a single trip on his regular route.

Who can beat this record?

Three million bushels of coal will come out of Kanawha on the present run.

The towboat Henry Deane, owned at Cincinnati, has lately been fitted out with an entire new hull at Point Pleasant, with general repairs, and will be out for duty on the present run.

Effective September 4th the proportional reduction of employees of the Louisville and Nashville Railroad will be discontinued. This is the result of an agreement of the Louisville and Nashville, the Cincinnati Southern and the Chesapeake and Ohio.

The Kanawha Dispatch Fast Freight line has made a reduction of employees. Notice has been received that fourteen of the Contracting Freight Agents have been suspended for sixty days. This affects agents at New York, Baltimore, Boston, Philadelphia, Pittsburgh, Toledo, Cleveland, Cincinnati, Louisville, St. Louis and Chicago. The agent at Louisville to be suspended is Lemuel Herndon, who has been in the employ of the Kanawha Dispatch for several years.

Portsmouth Ohio.—The Ohio river is rising from heavy rains, the result of the late rains, the heaviest having fallen in the Greenbrier and New Rivers causing a rise of ten feet in the river at Portsmouth. The Ohio was reported lower than for many years, but here the stage of water was exactly the same as last year. The river, however, last year was in the late week of October and first week of November. It is not likely that the river will again recede to its former low stage this season.
